DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. § 121:

- I. Claims 1-11, drawn to controlling the temperature of a sample illuminator of a color measurement instrument and in a method of measuring color, classified in class 356, subclass 402.
- II. Claims 12-14, drawn to a transimpedance amplifier and an integrator connected to a photodiode of a color measurement instrument, classified in class 356, subclass 402.
- III. Claims 15-20, drawn to lens means/system of a color measurement instrument, classified in class 356, subclass 402.

The inventions of Groups I-III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, the invention of Group I has separate utility such as in any instrument where temperature stability of an illuminator is required. The invention of Group II has separate utility such as in any instrument where the rejection of ambient light is necessary. The invention of Group III has separate utility such as in any instrument where it is desired to reduce the positional sensitivity of the instrument with respect to a target. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR § 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR § 1.48(b) if one or more of the currently

Art Unit: 2877

named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
